

Medium		oil
Design pressure MPa		1.5
Test pressure MPa	strength	2.25
	air tightness	1.65
heat transfer areaM ²		
outside fin	95BW2502	
inside fin	30JC3002	

1. hydraulic test pressure of 2.25MPa for 10 minutes & no leak is allowed
2. air compressor 1.65 MPa for 30 minutes in water and no leak is allowed
3. all threaded to be plugged in the plastic caps to avoid direct entry during storage
4. color RAL9005
